## About Pipli Applique

An enchanting form of fabric based patchwork, well known for its geometric motifs and stylized birds, animals and flowers cut out of brightly coloured cloth and sewn on contrasting backgrounds. The typical traditional motifs are varied yet fixed in their colours and representations. Motifs ranging from the geometric, abstract and figures from actual life forms are stylized to form versions of social, natural, astral and mythological characters and objects.

## About The Artist

Purna Chandra Ghosh has been working on this style for more than 20 years and has steadily evolved his own style relevant to the urban market. Purna Chandra's entire family is involved in the work at various stages. Over the years, he has developed the acumen to try out newer contemporary designs and his applique is unique and artistic.
